Basorfil - The Newest Wave in Cable Tray

Basorfil Wire Mesh Steel Tray incorporates a safety edge to help avoid damage to cables. In addition, our patented wave design on all longitudinal wires creates a much stronger and lighter tray. BF2R Electrozinc finish trays are fitted with pre-installed quick splices, making it the most economical tray on the market and making it possible to join two sections of tray in 4 seconds. Other finishes for Basorfil include hot-dipped galvanized, 304 and 316 stainless steel and yellow, red and black painted finishes. The product line also includes numerous splices, supports and accessories to complete your next project.
